Black Canyon Builders Named Regional Dealer for Woodhouse Timber Frame Company

[Black Canyon Builders](#), serving Southwest Colorado as a leading builder of custom homes, is proud to announce that the company has been named the independent builder dealer for [Woodhouse Timber Frame Company](#).

As the Woodhouse Timber Frame dealer for the Southwest and Western Slope region, [Black Canyon Builders](#) will coordinate with contractors, homeowners and developers to deliver the highest quality timber frame structure (home, barn or commercial) on the market. [Woodhouse](#) has been handcrafting timber frames for over 30 years. The company builds both custom designed homes and competitively priced SmartWood™ pre-designed timber frame plans. Black Canyon Builders distributes [Murus](#) structural insulated panels (SIPs) in conjunction with the timber frame packages.

The beauty, drama and heritage of timber frame homes are well known. What is less understood is that timber frame construction results in a highly energy efficient home and near complete freedom of design. Since Woodhouse builds the timber frame off-site, there is less on-site disturbance and waste. Additionally, a timber frame structure can be dried in very quickly, making it an excellent alternative if building time occurs during our Southwestern monsoons or long winters.

For more information, please contact Jared Ogden at 970.903.9577. You can also reach him via the Black Canyon Builders website (<http://www.blackcanyonbuilders.net>) or [Facebook](#). To learn more about timber frame homes, check out the Black Canyon Builders blog (<http://blog.blackcanyonbuilders.net/>) or the Woodhouse website (<http://www.timberframe1.com/>).

About Black Canyon Builders: Based in Durango, Colo., Black Canyon Builders is owned by ex-professional climber and alpinist, Jared Ogden. Ogden had a successful 15-year career exploring the mountain ranges of the world before returning home to Durango to dedicate his life full-time to his equal passion for building. He has worked in construction for over 20 years and started Black Canyon Builders in 2006. Ogden is a craftsman and general contractor of the highest level, weighing integrity, client communication, skill and artistry on equal measure. www.blackcanyonbuilders.net
